Heart Gallery of Georgia Launch

There are nearly 400,000 children in foster care in the United States.
Over 101,000 need adoptive homes right now.
More than 25,000 age out of foster care every year, at age 18 without anyone, to live on their
own, unprepared and unsupported.

A team from coastal Georgia is pleased to be launching a statewide initiative that offers hope to
this seemingly hopeless statistic. The mission of Heart Gallery of America ® Inc. is to facilitate
and utilize the power of photography to capture the individuality and dignity of children living in
foster care, in order to advocate for their permanency, raise public awareness about their needs,
and obtain support to help meet those needs. There are over 120 such galleries throughout the
nation and now Georgia will have one featuring the children eligible for adoption throughout our
state. Heart Gallery of Georgia’s affiliation with the national gallery vastly increases the
exposure received by our foster care children in need of their forever families. The Heart Gallery
of America website (www.heartgalleryofamerica.org) features success stories and exciting
statistics that have fueled the efforts of our local team. Our state gallery celebrates the beauty
found in the hope of each child as the resilience of these children is the very thing that offers
hope for us all. We are looking forward to gallery debuts throughout the state where local
community members can come together to celebrate and learn about some of our most
courageous little citizens. We would love for you to join our upcoming efforts in support of these
children. If interested, please contact:
